

MOHAMMAD FAIZAN

Backend Developer — Aspiring Software Engineer

Jagtial, Telangana — +91 6301514204 — mohammadfaizan994812@gmail.com

<https://www.linkedin.com/in/mohammad-faizan77/> — <https://github.com/Mohd5zan> — Portfolio

Professional Summary

Computer Science graduate focused on backend development with Node.js, Express.js, MongoDB, and REST APIs. Built and deployed authentication, URL management, analytics, and financial transaction systems, including idempotent transaction handling and atomic database operations. Strong foundation in DSA, OOP, DBMS, operating systems, and computer networks.

Projects

LittleLink - URL Shortener Web Application

04/2026

TechStack: Node.js, Express.js, MongoDB, EJS, JWT, REST APIs

[Live Demo](#) — [GitHub](#)

- Designed and deployed a full-stack URL shortening platform with **JWT-based authentication**, enabling secure user accounts, URL generation, redirection, and analytics.
- Engineered **11+ RESTful backend routes** and **6 responsive pages** covering authentication, URL management, redirection, and user-specific analytics.
- Implemented **click tracking and visit-history analytics** with MongoDB Atlas, and deployed the application on Render with environment-based configuration.

Banking Backend - Secure Financial Transaction API

08/2026

TechStack: Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt, Nodemailer

[Live Demo](#) — [GitHub](#)

- Built **8 RESTful APIs** for JWT-authenticated accounts, balance management, and secure fund transfers using Node.js, Express.js, and MongoDB.
- Implemented **ledger-based balance tracking, idempotent transactions, and atomic MongoDB operations** to maintain transaction consistency and prevent duplicate transfers.
- Designed a modular **MVC architecture** with reusable services, middleware, password hashing, and email notifications for maintainable backend development.

Refokus Clone - Creative Agency Landing Page

06/2026

TechStack: React 19, Vite, Tailwind CSS v4, Motion, Locomotive Scroll

[Live Demo](#) — [GitHub](#)

- Developed a pixel-accurate, responsive React application using **10+ modular components** with reusable UI architecture.
- Engineered scroll-driven animations across **6+ visual sections**, interactive product panels, and smooth page transitions using Motion and Locomotive Scroll.
- Implemented an infinite marquee showcasing **20+ client logos**, optimized responsive layouts, and interactive UI elements for a polished user experience.

Technical Skills

Languages: C++, JavaScript, python

Frontend: HTML, CSS, Tailwind CSS, React.js, EJS, GSAP

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL, Redis

Tools: Git, GitHub, VS Code, Postman, Docker, Linux

Core CS: DSA, OOP, DBMS, OS, CN, System Design
(Learning) AI/ML: RAG, LLM, LangChain, LangGraph

Education

Vardhaman College of Engineering

2021 – 2025

Bachelors of Technology (B.Tech) in Computer Science and Engineering

CGPA: 8.3/10

Publications & Presentations

Firm Facilitator – Evaluate and Enhance Business Ideas

Apr 2025

Research Contributor Certificate

- Conducted in-depth literature review and research analysis for the paper, evaluating existing methodologies and identifying key gaps to support business idea assessment and improvement.
- Conference - ICCISS'25**

Certifications & Coding Profiles

Certifications

Jobready Skills – Wadhwani

Smart Coder – Smart Interviews

Infosys – Programming with Java

Coding Profiles

LeetCode: 1300+ Rating

Codeforces: 400+ Problems

CodeChef: 1111 Rating
