Objective

Computer Science graduate with experience in designing and developing full-stack web applications using JavaScript, Node.js, Express.js, MongoDB, and React. Strong problem-solving skills with a solid foundation in C++ and Data Structures Algorithms. Demonstrated ability to build secure, database-driven applications from concept to deployment, with a focus on performance, maintainability, and user experience.

Experience

Cognifyz Technologies

Oct 2023 – Nov 2023

Web Development Intern

Proof of Work: GitHub Repository — Certificate

- Developed responsive web pages and interactive user interfaces using HTML, CSS, and JavaScript. Applied debugging and problem-solving techniques to improve code quality and strengthen web development fundamentals. improving user experiences

Technical Skills

Programming Languages: C++, JavaScript, Java

Frontend Development: HTML, CSS, tailwind css, EJS, React.js, GSAP

Backend Development: Node.js, Express.js, REST APIs

Database Technologies: MongoDB, MySQL

Tools & Platforms: Git, GitHub, VS Code, Postman

Core Computer Science: Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

Education

Vardhaman College of Engineering

2021 – 2025

B.Tech in Computer Science and Engineering — CGPA: 8.3/10

Hyderabad, India

Publications & Presentations

Firm Facilitator – Evaluate and Enhance Business Ideas

Apr 2025

Research Contributor

Certificate

- * Conducted in-depth literature review and research analysis for the paper, evaluating existing methodologies and identifying key gaps to support business idea assessment and improvement.

Projects

LittleLink - URL Shortener Web Application

2026

TechStack: Node.js, Express.js, MongoDB, EJS, JWT

Live Demo — GitHub

- Designed and deployed a full-stack URL shortening platform with secure JWT-based authentication, enabling users to create and share shortened URLs.
- Engineered **11+ RESTful backend routes** and **6 responsive web pages** to support URL generation, redirection, analytics, and user management workflows.
- Implemented real-time click tracking and visit-history analytics, while integrating MongoDB Atlas and Render for scalable cloud-based storage and deployment.

Advanced To-Do Web Application

10/2024

Feature-rich productivity web application

GitHub Link

- Role:** Frontend Developer
- Tech Used:** HTML, CSS, JavaScript, LocalStorage
- Implemented task priority management with real-time progress tracking.
- Used browser localStorage to persist tasks and completion status across sessions.

Animated Website

12/2025

Interactive animated website with smooth transitions

GitHub Link

- Role:** Frontend Developer
- Tech Used:** HTML, CSS, JavaScript, GSAP
- Implemented scroll-based animations and element transitions using GSAP.
- Added image hover animations for enhanced user interaction.
